

Permatex®

NEW FORMULA!

STAYING AHEAD WITH INNOVATION

Continuing to adapt to the latest OEM technologies, Permatex's RTV Red, now incorporates a premium Oxime formulation; a non-corrosive, longer lasting and over all better performing gasketing solution.

Red RTV provides the combination of high temperature resistance of 650°F (343°C) intermittent with excellent resistance to cracking & shrinking caused by thermal cycling. This combination of features expands the uses and applications such as: Header, Exhaust Manifold, Turbocharge, Slip-fit Exhaust Parts.

Oxime Technology Benefits

- Non-corrosive
- Better performance
- Longer-lasting
- Low odor
